Project Title: Nightmute Airport Improvements – Electrical Design Services	Contracting Agency:
Project Number(s): CFAPT00572/ AIP 3-02-0195-002-202X	State of Alaska DOT&PF – Central Region 4111 Aviation Avenue Anchorage, AK 99502
Project Site (City, Village, etc.) Nightmute, AK	
Agency Contact: Philip Cheasebro, P.E.	Phone: (907) 269-0606 Email: <a href="mailto:philip.cheasebro@alaska.gov">philip.cheasebro@alaska.gov</a>

The RFP Package is hereby clarified or changed as follows:

1. Question & Answer

Q1: The statement of work for Nightmute Airport Improvements has Structural engineering services as required for “leveling” but then it specifically describes design services to include “relocating structures.” Is it the intention to relevel the SREB, to relocate the SREB, or to relocate and relevel the SREB? Are there other structures to be relocated?

A1: The project intent is to re-level the pad that the SREB sits on (B.3.2.1); this will require moving the SREB from its existing location, re-leveling the pad, then moving the SREB back to its existing location. The design scope (as described in B3.2.3) is to assist writing a specification for the construction contractor to submit a relocation plan, then review/approve the construction contractor’s submitted plan to move the SREB for the releveling work to occur, and then relocate the SREB on the level pad. complete. The SREB is the only Structure involved.

2. All other terms and conditions remain the same.
